

THREE CARD POKER BONUS JACKPOT SYSTEM

The rules for the Three Card Poker Bonus Jackpot System at this casino (as set out below) are our commitment to players in ensuring that the gambling we offer is 'Fair and Open' in accordance with the licensing objectives of the Gambling Act 2005. In the event of a dispute resulting from any ambiguity in the rules, the decision shall always be in the player's favour until such time as that ambiguity has been resolved.

BONUS JACKPOT WAGER

- To make this wager, a player must also make a pair plus and/or an ante wager.
- The wager must be placed on the betting sensor prior to all wagers being locked into play by the dealer.
- Once the dealer has 'locked out' the betting sensors, no more bets on these wagers can be accepted.
- Bonus Jackpot wagers with a ranking hand, will be paid, irrespective of the dealers hand.
- Wagers may be placed on the Red Bonus Jackpot sensor and/or where available, the Blue Jackpot sensor.
- Each coloured sensor will require a fixed stake to play, have it's own independent Jackpot hand and own payable. (Please see table displays or ask a team member for information)
- If the player's hand is not one of the winning hands from the payable, the Bonus Jackpot wager will lose.
- In the event of a misdeal all wagers are void.
- In the event of a hand shuffle only game, the Bonus Jackpot(s) wager will not be available for play.
- All Three Card Poker Tables with Bonus Jackpot Systems in play within this casino are linked and contribute to the Jackpot total.

A PLAYERS GUIDE TO THE HOUSE EDGE

The house Edge is a measure of how much the house expects to win, expressed as a percentage of the player's wager. For example, in a wager with the house edge of 5% the player will lose £5 for every £100 wagered. House edge varies by region, casino and game. In some games, player betting or skills decisions can affect the edge but it is important to keep in mind that the house always has some advantage against the typical player.
